

The Airtech 3AV Series closed-coupled Liquid Ring Vacuum Pumps are ideal for various applications that require continuous & quiet operation, a compact design and reduced power consumption.

The single stage, variable discharge port design provides efficient operation from 1 through 262 cfm for vacuum levels up to 29"Hg. The impeller's unique design of slower spinning curved blades reduces tip speed enhancing the life expectancy of the pump.

- More compact than conventional liquid ring pumps
- No belts, no couplings - alleviating problems with wear, alignment and belts
- Standard pumps have cast iron housing, bronze impeller & PTFE flap valve
- Stainless Steel impeller available
- Designed for heavy duty applications
- Manufactured to ISO 9001 standards
- Single face mechanical seal arrangement is standard
